APPENDIX A

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE SPECIFICATION:

The title on page 1 has been amended as follows::

~~CHEMOKINE RECEPTOR~~
METHODS OF TREATING A CCX CKR-MEDIATED DISEASE

IN THE ABSTRACT:

The title in the abstract on page 65, line 2 has been amended as follows:

~~CHEMOKINE RECEPTOR~~
METHODS OF TREATING A CCX CKR-MEDIATED DISEASE

IN THE CLAIMS:

The following claims have been amended as indicated without prejudice or disclaimer:

33. (Amended) A method of treating an CCX CKR-mediated condition in a mammal comprising administering to the mammal an agent that ~~modulates the activity or expression of CCX CKR~~ inhibits or promotes the binding of CCX CKR to ELC (EBI-1-ligand chemokine), SLC (secondary lymphoid organ chemokine) TECK (thymus expressed chemokine), BLC (B-lymphocyte chemoattractant), CTACK (cutaneous T cell attracting chemokine), mMIP-1γ (murine macrophage inflammatory protein 1γ), or vMIPII (viral macrophage inflammatory protein II) in a cell or tissue in the mammal.

34. (Amended) The method of claim 33, wherein the agent ~~is an agent that~~ inhibits the binding of CCX CKR to ELC, SLC, ~~or~~ TECK, BLC, CTACK, mMIP-1γ or vMIPII.

35. (Amended) The method of claim 33, wherein the CCX CKR-mediated condition is selected from the group consisting of inflammation, an allergic disease ~~allergy~~, an autoimmune disease, graft rejection, cancer, an ~~ifectous~~ infectious disease or an immunosuppressive disease.

36. (Amended) The method of claim 35, wherein the CCX CKR-mediated condition is inflammation.

APPENDIX B

PENDING CLAIMS

1-32. Canceled.

33. (Amended) A method of treating an CCX CKR-mediated condition in a mammal comprising administering to the mammal an agent that inhibits or promotes the binding of CCX CKR to ELC (EBI-1-ligand chemokine), SLC (secondary lymphoid organ chemokine), TECK (thymus expressed chemokine), BLC (B-lymphocyte chemoattractant), CTACK (cutaneous T cell attracting chemokine), mMIP-1γ (murine macrophage inflammatory protein 1γ), or vMIPII (viral macrophage inflammatory protein II) in a cell or tissue in the mammal.

34. (Amended) The method of claim 33, wherein the agent inhibits the binding of CCX CKR to ELC, SLC, TECK, BLC, CTACK, mMIP-1γ or vMIPII.

35. (Amended) The method of claim 33, wherein the CCX CKR-mediated condition is selected from the group consisting of inflammation, an allergic disease, an autoimmune disease, graft rejection, cancer, an infectious disease or an immunosuppressive disease.

36. (Amended) The method of claim 35, wherein the CCX CKR-mediated condition is inflammation.

37. (New) The method of claim 33, wherein the agent promotes the binding of CCX CKR to ELC, SLC TECK, BLC, CTACK, mMIP-1γ, or vMIPII.

38. (New) The method of claim 35, wherein the CCX CKR-mediated condition is an allergic disease.

39. (New) The method of claim 35, wherein the CCX CKR-mediated condition is an autoimmune disease.

40. (New) The method of claim 35, wherein the CCX CKR-mediated condition is graft rejection.

41. (New) The method of claim 35, wherein the CCX CKR-mediated condition is cancer.

42. (New) The method of claim 35, wherein the CCX CKR-mediated condition is an infectious disease.

43. (New) The method of claim 35, wherein the CCX CKR-mediated condition is an immunosuppressive disease.

44. (New) The method of claim 33, wherein the mammal is a human.

45. (New) The method of claim 33, wherein the mammal is a non-human primate.

46. (New) The method of claim 33, wherein the agent is an antibody.

47. (New) The method of claim 34, wherein

the mammal is a human; and

the CCX CKR-mediated condition is selected from the group consisting of inflammation, an allergic disease, an autoimmune disease, graft rejection, cancer, an infectious disease or an immunosuppressive disease.

48. (New) The method of claim 37, wherein

the mammal is a human; and

the CCX CKR-mediated condition is selected from the group consisting of inflammation, an allergic disease, an autoimmune disease, graft rejection, cancer, an infectious disease or an immunosuppressive disease. --
